## VIA VENETO

This represents the casual and denim-oriented spirit of the brand. It is called "Via Veneto" as it is inspired by the wild and trasgressive nights of the 60s. Movie posters and Cinema icons are brought back to life by a strong and easy look.

## NEW CLASSICS

This is the fashion-oriented side of the collection and it is marked by different styles and materials. We called this theme “New Classics”, as it reminds geometries and patterns which were typical of Rationalism. The mood is nocturnal and vaguely dark, with sudden brushstrokes of lively colours.
